Hygiene Station "Score" with Steripower Sanitiser Device

The aluminium and steel display provides an optimal stand function for the high quality Steripower hand sanitiser "White Edition". The disinfectant dispenser works with the help of a sensor that delivers a burst of spray during contactless use. This helps you avoid contact surfaces where pathogens and bacteria can adhere. The spray burst can be adjusted in intensity over 10 levels. The levels can be adjusted from 0.5 ml to 5 ml. The dispenser is suitable for disinfectant bottles up to 1000 ml. Corresponding bottles are available in our online shop.

A collection tray for excess liquids is integrated in the hand sanitiser dispenser. Absorbent medical pads, which you can order under our accessories with the Steripower kit, can be inserted into this collection tray. The practical and large opening offers plenty of space to cover both hands simultaneously with a spray mist.

In addition, the high quality Steripower device is equipped with a pre-charged battery. The corresponding charger is available with the Steripower kit (59.2495.12) in our range of accessories. It is not included in the delivery and is required for continuous use of the sanitising device.

Material: aluminium / steel / plastic;
Colour of upright: silver anodised;
Colour of base: silver similar to RAL 9006;
Size of base: 700 x 450 mm (W x T); Total height: 1500 mm
51.0129.19

Compatible with all liquid hand sanitisers!

Steripower Kit

Use the "Score" hygiene stand in entrance areas with the matching Steripower Kit. Included in this kit you get practical and necessary accessories for everyday use. The included 12 absorbent medical pads can be inserted into the collection tray of a hygiene display to absorb the excess liquid. In addition, the Steripower Kit includes an external charger with power supply and charging cable as well as a rechargeable battery (12V - 7.0 AH).

Features: 12x Medical Pads, 1x charging cable;
Features 2: 1x external charger, 1x battery (12V - 7.0 AH)
59.2495.12

Hygiene Stand "Sensor-Tondo"

Our hygiene stand "Sensor Tondo" is ideal for high traffic customer areas such as entrance areas in supermarkets, pharmacies and banks. The operation is contactless thanks to the integrated sensor. Simply hold your hands under the sensor for 2 seconds and your hands are sprayed with sanitiser. In addition, the dosage can be adjusted between 3 levels. This guarantees professional and hygienic use at all times. The liquid sanitiser can be easily filled into the integrated container. Through the insert frame in A4 landscape format placed above the dispenser, you can also draw your customers' attention to other important behaviours, such as the social distancing.

Frame material: plastic; Insert size: A4 (210 x 297 mm);
Orientation: landscape; Frame colour: grey;
Type of cover sheet: anti-reflective, UV stabilised;
Frame material: metal; Colour of frame: silver;
Material of base: metal; Base diameter: 320 mm;
Colour of base: silver; Total height: 1770 mm;
Power supply: operation with 6x AA battery or mains adapter;
Features: incl. sanitiser dispenser with sensor 1L;
Model: sensor controlled spraying technology;
Features 2: without sanitiser; Features 3: without batteries
50.0340.1

Corresponding sanitiser for our hygiene stand can be found in our online shop.
There you can also find practical hand sanitiser gels.

1

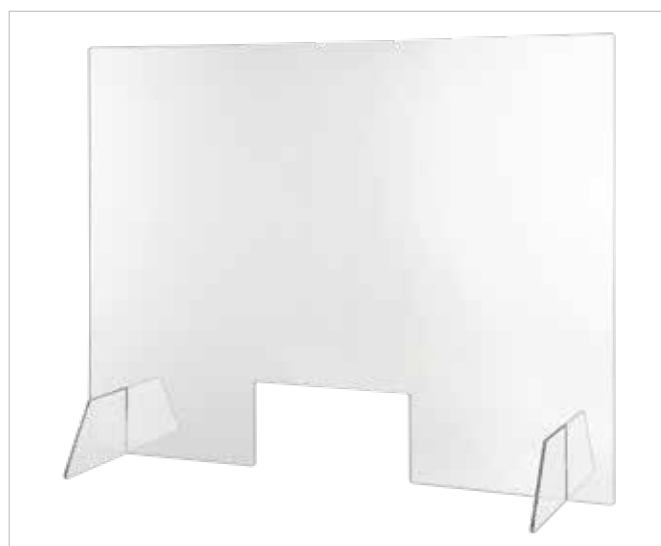

Spit Shield "Construct"

In the areas where seller and customer meet in direct contact, special hygiene regulations must be observed in the current situation. The spit shield "Construct" is optimally suited to protect employees and customers. The aluminium square tube holds the transparent plastic panel. With a size of 1000 mm in width and 500 mm in height, this offers exactly the right hygiene protection. The entire frame has a height of 750 mm, which gives the possibility of a pass-through of 250 mm in the lower area. We recommend cleaning the material with a soft microfibre cloth and warm soapy water.

Frame material: aluminium / plastic;
Profile type: square tube, 30 x 30 x 1,5 mm;
Frame colour: silver anodised / black; Total depth: 250 mm
51.0313.8

Would you like the product in a different format?
No problem. Please contact us!

Sneeze Guard "Alba"

The sneeze guard Alba is made up of 3 parts which slot together and can be disassembled again if necessary and stored in little space. The opening has a size of: 300 x 150 mm (width x height)

Material: plastic; Colour: crystal clear

"VoiceBridge" Intercom

Communicate clearly and effortlessly with your customers. In spite of face masks and hygiene barriers! Our "VoiceBridge" automatically activates and deactivates itself when a customer enters the checkout area or comes to a service counter. A loudspeaker is mounted on each side of the hygiene protection walls. No specialist knowledge is required to install the system: the loudspeakers are equipped with double-sided mirror adhesive tape on the back. Simply peel off the protective film and attach it to the hygiene protection wall. Plug the power supply unit into the socket and you can communicate clearly and effortlessly!

Casing material: plastic; Sizes: 86 x 111 x 18 mm;
Colour: white; Connection: with power supply
10.0540.1

For cleaning of acrylic and transparent plastics we recommend
"Viral Cleaner Acrylic". (60.0004.2). Find it online!

Roll Banner "Stick" Partition Wall

The roll banner "Stick" is a classic roll up banner that serves as a spit shield. In the aluminum casing is a PET sheet that can be pulled out. On request this can be printed turning it in to an advertising or information space. As soon as the stand is set up, it protects against sneezing, coughing or breath. The thin PET reduces the transmission of bacteria or pathogens via droplet infection. This provides ideal protection for office staff, customers or service personnel.

Casing material: aluminium; Casing colour: silver;
Height: 2000 mm; Depth: 300 mm; Version: partition;
Features: incl. transparent banner

Width: 850 mm

80.0126.77

Width: 1000 mm

80.0126.72

Aluminium Stretch Frame Partition Wall incl. crystal clear PVC Banner

The partition consists of an aluminium stretch frame, which stands on two stable base plates. It is supplied with a clear banner made of film, which is fitted all around with flat piping. The barrier wall is ideal for implementing distancing rules and separating areas. At the same time, visibility in the room is maintained. This is particularly advantageous where eye contact is important, e.g. in the dining room of restaurants or in consultation meetings. The optical perception of the room is also maintained by the transparency and is not negatively impacted.

Another banner can be clamped into the frame at any time. We would be pleased to offer you a custom printed textile banner or also a sound insulated version.

For cleaning we recommend warm detergent solution.

Frame material: aluminium; Frame colour: silver anodised;
Frame depth: 44 mm; Version: incl. transparent PVC banner
and 2 angle feet

Face Protection Visor

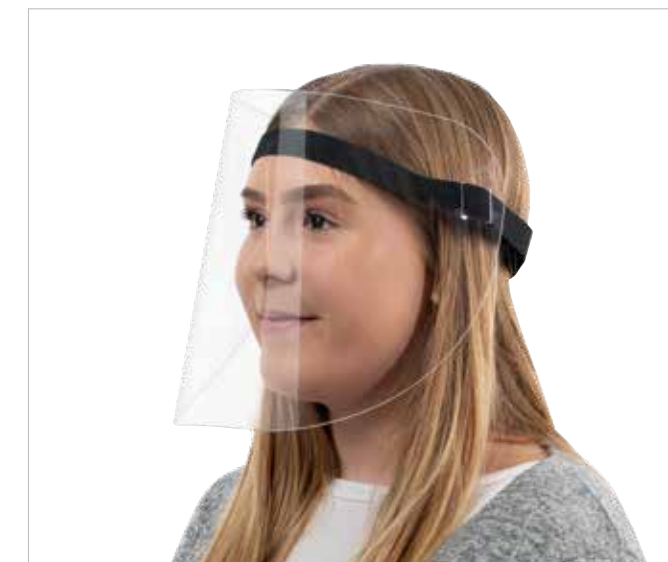

The crystal-clear plastic material allows a good view while the face is fully protected. The sheet has a width of 380 mm and a height of 225 mm and is attached to the head with a hook & loop strap. The strap has a length of 800 mm and can therefore be adjusted to fit any head size without slipping.

The visor is neither personal protective equipment nor a medical product.

Material: PET; Material thickness: 0.5 mm;
Colour: crystal clear; Version: adhesive closure & fleece
is enclosed (800 mm); Weight: 90 g
26.0732.1

1. Remove protective film from both sides

2. Push the visor forward

Professional Air Purifier "R150 Silent"

The professional air purifier "R150 Silent" with 3 filter stages and UV-C light frees the air reliably from aerosols, bacteria, pollen and viruses. Particularly suitable for large rooms with high traffic, such as doctors' surgeries, fitness studios, open-plan offices and nurseries.

The device consists of a powerful fan with a 3-stage filter unit. The air is sucked in and passed through a pre-filter past UV lamps and then passes through the built-in HEPA (High Efficiency Particulate Air Filter), which removes aerosols, dust particles, viruses, pollen and bacteria from the air.

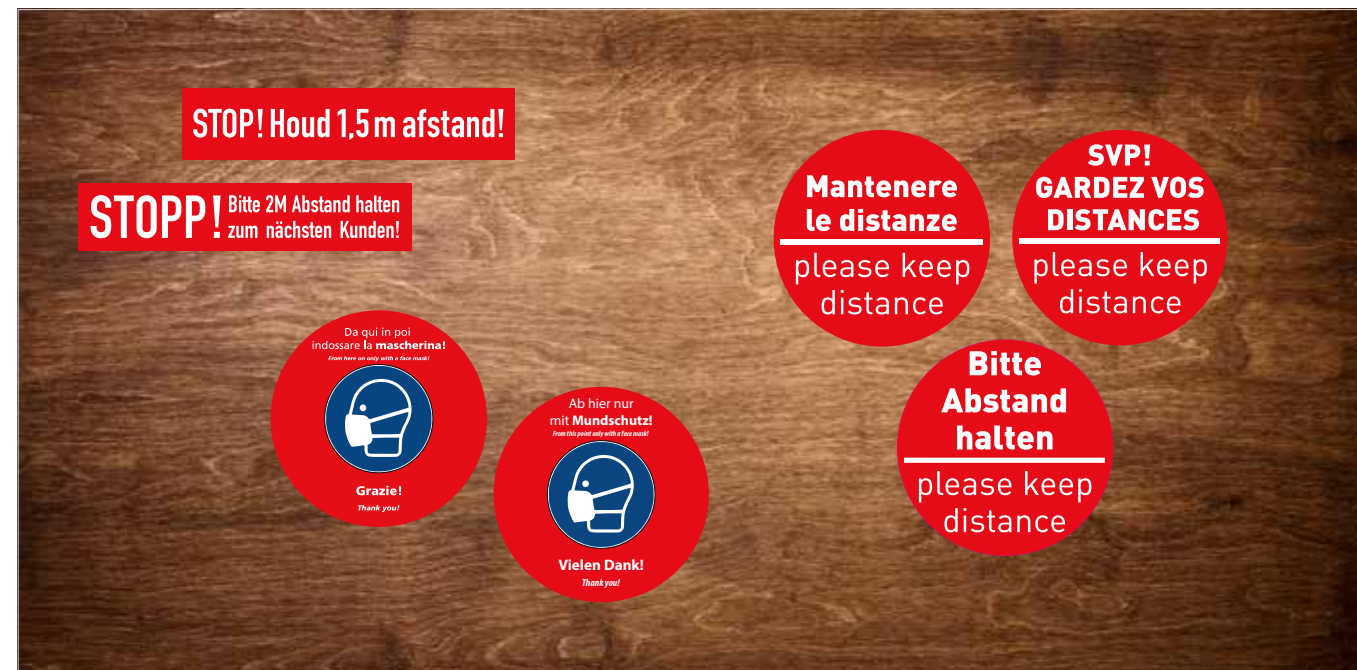

Material: aluminium; Surface: powder coated;
Colour: white; Sizes: 393 x 463 x 950 mm (L x W x H);
Room size: up to 150 m²; Separation efficiency: 99,95%;
Filter area: 150 m²; Volume flow: 1062 m³/h;
Designed for: rooms up to 150 m² with a room height of 3 m;
Finish: with infinitely variable power control (0-100%);
Features: with manometer display for filter change;
Power input [W]: 210 W; Voltage [V]: 230 V;
Amperage [A]: 16 A; Weight: 22 kg

Ladders

Floor stickers in various designs

High quality floor stickers are the ideal way to provide eye-catching and concise information. Due to the quick application and the high attention they attract, the stickers are a great means for effective floor advertising. At the point of use, you then simply pull the stickers from a film and place them on the floor.

And just like that, you can advertise your products and offers or provide information about safety instructions and opening hours. Floor stickers are available in a wide variety of colours and shapes, which we can print for you. Discover the diverse selection in our online shop or get in touch!

Washable Mat with Logo / Doormat / Customised Imprint

The logo mat is printable in 30 basic colors and can be washed at 50 °. The mats are also available on request in special sizes and colors. All mats are produced with a circumferential rubber edge of approx. 2 cm. The PVC-free NBR back prevents the mats from slipping on smooth surfaces. The mat surface is made of polyamide 6.6 and is B1 fire protection certified. In addition to a high dirt trap capacity, it has a water absorption of 3-4 l / m². The weight of the pile is about 750 g / m² and is about 8 mm high. The costs include printing and design costs. A size tolerance of +/- 3% is possible!

Size: 850 x 1150 mm; Print method: chromo JET
16.0036.7

Logo mats can be made in portrait or landscape format.
Special colours also available on request.

- The associated colour table can be downloaded from our website.
- Pre-printed logo mats with the guidance "Please keep your distance" can be found in our online shop.

Display Window Concept 5 (80.0902.13)

You can bring an elegant presentation of your offer into your shop window with Set 5. You display your goods in a high quality and effective way on black and white EasyCube columns at the eye level of your customers. The puristic basic elements put your product presentation in the foreground. The black and white design of the presentation column breaks up the display and acts as an eye-catcher for passers-by. Let us know your specifications. Captivate the passing public!

Shelf Optimisation

NEW

**Shelf Lighting System "FlexiPower"**

Simple and effective: that's our new, flexible lighting set for your shelves! Highlight your perfume range in the chemist or put new items in the right light for the Christmas season. Combine several rails again and again or set your highlights with only one LED rail. A clever magnet system allows you to attach the LED rails in front of or behind your metal shelf in just a few simple steps. The LED strips are powered via small magnetic collectors, each with 2 connection options. These are attached by spring-loaded contacts to a power rail which is mounted vertically. If necessary, you can simply shorten the power rail yourself on site to the correct height of your shelves. The small collectors can be moved along the distribution rail without interrupting the power supply.

Up to 3 LED strips can be connected in a row via a magnetic collector and a maximum of 8 LED strips can be used via a power rail. For maximum flexibility, each LED bar has 2 connection options. Start your lighting project!

Shelf lighting set "Mini" consists of:

- 1x power rail (10.0512.15)
- 1x power supply unit (10.0086.126)
- 4x LED strips 950 mm each (10.0231.363)
- 4x magnetic clips (10.0512.14)
- 4x distribution box (10.0512.16)
- 4x connecting cable 600 mm (10.0512.26)

Fixing: magnetic; Connection: 230 V;
Voltage [V]: 24 V; Light technology: LED

Designed for: 1 gondola;
Number of lamps: 4x LED strips 950 mm;
Power input [W]: 38 W; Version: mini

10.0526.1

Designed for: 2 shelf sections;
Number of lamps: 8x LED strips 950 mm;
Power input [W]: 76 W; Version: midi

10.0526.2

1. Version Mini: 10.0526.1.

2. Version Midi: 10.0526.2.

Minimum order quantity 100 pieces

Length: 75 mm

24.0165.1

**Price Ticket Holders for Glass Shelves**

The insert pocket of the price tag holder is made of 2 mm clear acrylic. This elegant material ensures a high quality look. The glass holder mounted on the back has a slight angle and thus creates the ideal reading angle. Use the label holder in pharmacies and markets to inform your customers about product details directly on the glass shelf. The price tag holder can be easily attached to glass shelves with a thickness of 5-10 mm and removed again if required.

You can also change the labels as desired. In A7 size (width 105 mm, height 74 mm) for flexible placement.

Application: for clipping onto 5 - 10 mm thick shelving

Digital Signage

Digital Pavement Sign "Outdoor"

Advertise both indoors and outdoors. Light rain (IP 54) does not affect the solid pavement sign. Even gusts of wind cannot easily knock over the 45 kg advertising unit. In extreme weather conditions such as heavy rain, heat or storms, simply roll the customer stopper into the safety of your business premises. Thanks to the strong castors, this can be done in no time at all. A slight tilt of the display allows quick relocation. Long business days of up to 14 hours are easily supported by the battery.

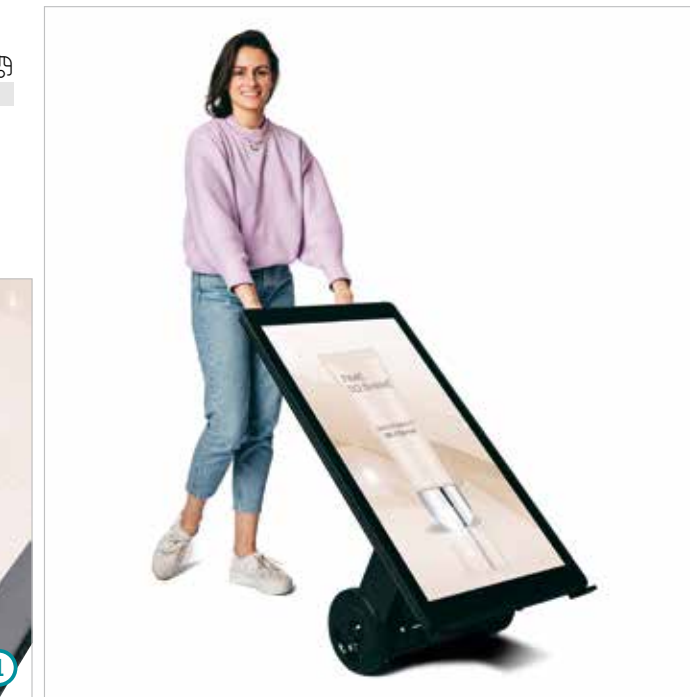

Casing material: glass / metal; Colour: black;
 Monitor size: 101,60 cm (40"); Width: 420 mm;
 Height: 1000 mm; Depth: 560 mm; Weight: 45 kg;
 File type: JPEG, BMP, PNG, MP3, MPEG I/II/IV, H264;
 Memory type: USB; Playback type: 9:16; Speaker: optional;
 Internal memory: no; Range of use: for indoor and outdoor use;
 Resolution: 1080 x 1920 pixels; Touchscreen: no;
 Brightness: 500 cd/m²; Connectivity: USB;
 Autostart function: yes

NEW

Shop Window Screen FLASH.movie "PRO Double Air", double-sided

Doublesided screen in portrait format for ceiling hanging with 2 different brightnesses, where one side offers a brightness of 450 cd/m² and another 700 cd/m² (43") or 800 cd/m² (55"). This makes it ideal for use in an entrance area or display window without having a bright display inside. With an Android operating system, wireless LAN and the software included, content can be displayed from an existing PC without connecting a network cable. It can also be used standalone where the data is loaded from a US to the internal memory. The white casing is suitable for nearly every environment. Fixings for ceiling hanging with steel cables are included in the delivery.

Casing material: metal; Colour: white;
File type: MPEG, MP4, AVI, MOV, JPEG, BMP, MP3, AAC uvm.;
Memory type: USB, HDMI Input; Playback type: 9:16;
Speaker: integrated; Internal memory: 8GB;
Range of use: indoor area; Resolution: 1080 x 1920 pixels;

Digital Info Stand "Attract Mini"

Digital info stele with a 15.6" portrait format screen as a modern and cost-effective way to display your products. The built-in media player with optional battery power give this the flexibility to use at exhibitions or on the move. The lifespan can be extended by using a motion sensor. An HDMI Aconnection allows connection of external players. The wheel sets mean you can move the stele to wherever it is needed.

Casing material: metal / wood / plastic;
Monitor size: 39.62 cm (15.6"); Width: 257 mm;
Height: 1125 mm; Depth: 505 mm; Weight: 8.0 kg;
File type: MPEG, MP4, AVI, MOV, JPEG, BMP, MP3, AAC uvm.;
